PREFATORY NOTE.

THE Second Portion of the extensive Numismatic Collection, formed by the late Dr. Paul Fr. Chs. Stroehlin, which is summarily described in the following pages includes the greater part of his trade stock of European Coins and Medals, to which are added a Find of mediæval gold coins of various countries and mints, an important Collection of Gaulish and Celtic coins, a valuable Series of gold and silver Monetary issues of the Counts of Montfort, City and Bishopric of Breslau, Dukes of Liegnitz-Brieg, Münsterberg-Oels, Rulers of Silesia, &c., and a fairly complete collection of Portrait Medals of Numismatists, Medal-engravers, as well as Commemorative Medals relating to Numismatics.

It is proposed to complete the dispersion of the collection at Geneva in the course of the next winter season, 1910-1911. This third portion will comprise the coins and medals of German Switzerland, Italian Cantons and neighbouring Italian principalities and mints, and the remainder of the general stock.

Owing to the vast accumulation of coins and medals which Dr. Stroehlin had in his possession, scattered in various places at the time of his death, this portion of the collection was sent to London in miscellaneous lots at intervals which rendered the task of compiling the present catalogue unusually difficult.

A full index of the whole collection will be issued with the third portion which will facilitate reference and enhance the usefulness of the catalogue.
